# Resumo

Neste relatório descrevemos as técnicas utilizadas nos agentes do jogo *space invaders*, além do processo de treinamento.

# Capítulo 1

## Introdução

You can label chapter and section titles using `{#label}` after them, e.g., we can reference Chapter 1. If you do not manually label them, there will be automatic labels anyway, e.g., Chapter 3.

Figures and tables with captions will be placed in `figure` and `table` environments, respectively.

```
par(mar = c(4, 4, .1, .1))
plot(pressure, type = 'b', pch = 19)
```

Reference a figure by its code chunk label with the `fig:` prefix, e.g., see Figure 1.1. Similarly, you can reference tables generated from `knitr::kable()`, e.g., see Table 1.1.

```
knitr::kable(
  head(iris, 20), caption = 'Here is a nice table!',
  booktabs = TRUE
)
```

You can write citations, too. For example, we are using the **bookdown** package (Xie, 2020) in this sample book, which was built on top of R Markdown and **knitr** (Xie, 2015).

## Capítulo 2

# Trabalhos relacionados

Here is a review of existing methods.

## Capítulo 3

# Metodologia

We describe our methods in this chapter.

## Capítulo 4

# Resultados e discussão

Some *significant* applications are demonstrated in this chapter.

### 4.1 Example one

### 4.2 Example two

## Capítulo 5

# Conclusões e trabalhos futuros

We have finished a nice book.
